

June 2013 Annual Attachment Focus

The June issue of *Equipment World* showcases your products in an in-depth round up of the latest attachments for construction equipment. Our readers make a direct connection between you and your products and the value they offer.

All products will be placed in product categories, allowing readers to locate attachments more quickly based on jobsite and equipment needs.

Categories Include:

- Demolition
- Clean Up
- Compaction
- Concrete/Asphalt
- Couplers
- Earthmoving
- Land Clearing
- Landscaping
- Lifting
- Machine Enhancements
- Miscellaneous

Equipment World is sent to 78,000+ construction professionals who need your products and solutions. Readers will refer back to this issue throughout the year, giving you repeated exposure.

What We Need From You:

- ✓ Short Product Description
- ✓ Color Photos of Product (action shots preferred)

Contact your Construction Media account manager for rates and listing options

ATTACHMENTS

SPONSORED INFORMATION SECTION

TREE SPADE LIFTS AND MOVES SEVERAL ITEMS
Maintain visibility while digging, carrying and storing trees and stumps with the TTC Tree Spade by Palstad.
• Available in 30-, 40-, 44- and 48-inch ball sizes.
• Features a 3.8-inch plate construction with anti-sloped edge.
• Includes no moving parts.
• See T11 in Reader Service Card or visit palstadusa.com

MAN BASKET PROVIDES WORKER SAFETY
Extend the versatility of service cranes with the Attachments Products Quick attach Man Basket, which features a 30-inch-wide by 20-inch-deep full-sized floor.
• Contains heavy-duty steel, in-wrap-opening doors and a universal mounting bracket.
• Safety features include floor slits, upper hooks and a low-machinable, high-capacity caliper brake.
• Optional heavy stand and CSA-approved upper basket enclosure available.
• See T12 in Reader Service Card or visit palstadusa.com

DRILLING ATTACHMENTS MEET SPECIFIC NEEDS
Use both steel and large hydraulic systems with General Equipment's City-D Drill Line for earth drilling, which uses a 2-inch hydraulic taper drive system.
• Available in up to 36-inch diameter.
• Features P-Series, cast-steel boring heads and Super-Flow.
• Full-flighted auger extensions available for additional drilling depth.
• See T13 in Reader Service Card or visit general-equip.com

ANGLE BROOM PROVIDES JOB VERSATILITY
Extend a range of work on your machine by up to 180 degrees with the high-capacity Angle Broom, which mounts directly to ball mount disc attachment systems and can be angled to a maximum of 30 degrees left or right.
• Optional single point raise/lower storage stands and dirt deflectors available.
• Available in 6-, 7- and 8-foot widths.
• Proper mounting plate required when used Steer model is specified.
• See T14 in Reader Service Card or visit palstadusa.com

HYDRAULIC KITS ARE CUSTOMIZABLE
Operate, control and protect hydraulic attachments and attachments with Attachments Products' H-K-C, which include pre-assembled components to reduce install time.
• 2-Pipe standard kits are upgradeable and customizable.
• Features built-on design and powder-coated tubes.
• Controls integrate with factory hydraulics and monitors.
• See T15 in Reader Service Card or visit palstadusa.com
